tiagoaleex@gmail.com

PROFESSIONAL SUMMARY:

Motivated and self-taught web developer with professional experience as a Frontend Developer. Skilled in building responsive, user-friendly applications using modern web technologies and frameworks. Strong enthusiasm for continuous learning and problem solving, with a proven ability to adapt quickly in fast-paced environments. Looking to contribute to a collaborative team where innovation, growth, and personal development are encouraged.

SKILLS:

Languages: Javascript, Typescript, HTML, CSS, Python

Frameworks & Libraries: React, Node.js, Gatsby, Wordpress, Express, Bootstrap, Jest, Styled Components, MUI.

Databases: MongoDB

Developer Tools: Git, VSCode, Figma, Adobe Suite, Sketch

PROFESSIONAL EXPERIENCE:

Frontend Developer - Conversio

London, UK

March, 2022 - Present

- Delivering responsive, pixel perfect A/B tests for high-traffic clients including **Ocado, Liverpool FC, Laithwaites, Belmond** and others, ensuring accessibility, performance, and cross-browser compatibility.
- Implemented company-wide Git version control, establishing best practices for branching, code reviews, and collaborative workflows to improve team efficiency.
- Developed a CalendarView application integrated with Google Calendar API, displaying events in a structured table format to support productivity.
- Collaborated with UX teams and applied advanced JavaScript, HTML, CSS/SASS, and React to implement new features and optimise user experience.
- Co-developed and maintained a reusable React component library to accelerate A/B test creation and improve code consistency across projects.
- Developed a React Application that helps the team to create tracking Events.

Freelance Frontend Developer - Astrazeneca

Remote, UK

March, 2021 - 2023

- Collaborated with a team of developers to build new features and integrate interactive SVG maps into a high-traffic web application used by thousands of users, enhancing functionality and engagement.
- Provided custom user support by investigating and resolving bugs, with a strong focus on improving usability and overall user experience.

Freelance Frontend Developer - Redgrain Consulting Limited

Remote,UK

Feb, 2021 - 2023

Freelance Frontend Developer - EveryFriday

Remote,UK

May, 2021 - Aug, 2021

- Contributed updates to the codebase and developed new features for the client's marketing website, enabling the creation of visually engaging, customizable pages through the WordPress content editor, improving flexibility for non-technical users

Freelance Frontend Developer - Caffè Nero

Remote,UK

May, 2021 - May, 2021

- Updated and developed new features for the client's marketing website, enabling the creation of highly configurable and dynamic pages for greater flexibility and user engagement
- Rewrote the code and logic for the [/menu](#) items, improving performance, maintainability, and ensuring a smoother user experience

Freelance Frontend Developer - We are Collider

London,UK

Sep, 2020 - Dec, 2020

- **Sharpe Europe** – "Future of Work" Microsite: Built, updated, and added new features using HTML5, SASS, and modern JavaScript, implementing SEO best practices to enhance performance and visibility, while managing collaboration and version control through GitHub.
- **Lyxor ETF** – European Campaign Web Banners: Designed and developed interactive web banners from Sketch storyboards, delivering high-quality, visually engaging assets optimised for multiple European campaigns.

PROJECTS:

Sandalwood Custom Carpentry ([Website](#))
